Assessment Policy

(See also Marking and Feedback; Target Setting)

1 Introduction

1.1 We believe that effective assessment provides information to improve teaching and learning. To do this in our school we undertake two different but complementary types of assessment: assessment *for* learning and assessment *of* learning.

1.2 Assessment *for* learning (formative assessment) involves the use of assessment in the classroom to raise pupil achievement. It is based on the idea that pupils will improve most if they understand the aim of their learning, where they are in relation to this aim, and how they can achieve this aim (i.e. to close the gap in their knowledge).

1.3 Assessment *of* learning (summative assessment) involves judging pupils' performance against national standards. Teachers may make these judgements at the end of a unit of work, of a year, or of a key stage. Test results, too, describe pupil performance, in terms of levels.

1.4 We give our children regular feedback on their learning so that they understand what it is that they need to do better. Research has shown that their involvement in the review process raises standards, and that it empowers pupils to take action towards improving their performance.

2 Objectives

2.1 The objectives of assessment in our school are:

- to enable our children to demonstrate what they know, understand and can do in their work;
- to help our children recognise the standards to aim for, and to understand what they need to do next to improve their work;
- to allow teachers to plan work that accurately reflects the needs of each child; to provide regular information for parents that enables them to support their child's learning;
- to provide the head teacher and governors with information that allows them to make judgements about the effectiveness of the school.

3 Planning for assessment

3.1 We use our school's curriculum plan to guide our teaching. In this plan we set out the aims, objectives and values of our school, and give details of what is to be taught to each year group. In our school curriculum plan we also identify opportunities for assessment within each broad unit of work.

3.2 To support our teaching we use national schemes of work produced by the QCA. We use the assessment guidance and p scales in these schemes to help us identify each child's level of attainment.

3.3 We plan our lessons with clear learning objectives. We base these upon the teacher's detailed knowledge of each child. We strive to ensure that all tasks set are appropriate to each child's ability. Our lesson plans make clear the expected outcomes for each lesson.

3.4 Teachers always share the lesson's learning objective with the children as the lesson begins. They also indicate the way in which the activity is linked to the learning objective, and the criteria against which the work will be judged.

3.5 Teachers ask well-phrased questions and analyse pupils' responses to find out what they know, understand and can do, and to reveal their misconceptions.

3.6 We make a note of those individual children who do not achieve at the expected level for the lesson, and we use this information when planning for the next lesson. We also keep this information as a record of the progress made by the class.

4 Target-setting

4.1 Every school is required by law to set targets in mathematics and English each year for those pupils who are in Year 6. We in fact set targets in Mathematics, English and Science for all our children, during each academic year. We discuss individual targets where necessary, and communicate these to parents. We review the progress of each child at the end of the academic year, and set revised targets.

4.2 We also set targets for other areas of work in school. We encourage the children to set targets themselves, linked to their individual working habits. The children record these targets on target cards.

5 Recording

5.1 We recognise various methods of assessing a child's learning. The type of assessment that we make varies from subject to subject. Data is recorded in an assessment programme (B Squared), which is analysed by the Assessment Coordinator.

5.2 On our planning sheets we record only those pupils who fail to meet the planned learning objective, or who achieve more than was planned, so that we can take the needs of these pupils into account when planning for the next lesson. Where the majority of the class makes the planned progress there is, of course, no need to record this, and we use our annotated lesson plans as a record of progress measured against learning objectives.

5.3 We take the objectives for individual lessons from the broad learning objectives within the school's curriculum plan. Our teachers record the progress of each child against these broad objectives. This enables them to make a judgement about the work of each child's level of attainment. This allows us to monitor the progress of each child.

6 Reporting to parents

6.1 We have a range of strategies that keep parents fully informed of their child's progress in school. We encourage parents to contact the school if they have concerns about any aspect of their child's work.

6.2 Each term we offer parents the opportunity to meet their child's teacher. At the first meeting of the school year we review the IEP targets that we have identified for their child. At the second meeting of the year (which we hold at the end of the spring term) we evaluate their child's progress. At the third meeting of the year we review their child's written report. (See next paragraph).

6.3 During the summer term we give all parents of pupils in Reception to Year 8, a written report of their child's progress and achievements during the year. We write individual comments on all subjects of the National Curriculum, and on religious education. We also include a space for parental feedback.

6.4 In reports for pupils in Year 2, Year 6, and Year 9 we also provide details of the levels achieved.

6.5 We offer parents of pupils the opportunity to discuss their child's Learning Profile with the teacher.

6.6 At the start of a term each of our teachers in primary gives parents an update that identifies the main areas of study for that particular class. In this update the teacher identifies how parents can support any elements of the work during the rest of the term.

7 Feedback to pupils

7.1 We believe that feedback to pupils is very important, as it tells them how well they have done, and what they need to do next in order to improve their work. We have an agreed code for marking, in primary and secondary, as this ensures that we all mark in the same way, and the children learn to understand it.

7.2 We give children verbal feedback on their work whenever possible. We usually do this when the children are working during the lesson, although we sometimes give feedback on a particular lesson at the beginning of the next one.

7.3 Teachers give pupils feedback which confirms they are on the right track, and which encourages them to make an improvement. Teachers give pupils suggestions as guidance but they recognise that pupils gain most when they think things through for themselves.

7.5 Having children assess their own or each other's work can be very effective, because it enables them to clarify their ideas on progressing to the next step, but this must be carefully managed, to avoid unhelpful comparisons. Teachers always mark the work themselves afterwards.

8 Inclusion and assessment for learning

8.1 Our school aims to be an inclusive school. We actively seek to remove the barriers to learning and participation that can hinder or exclude individual pupils, or groups of pupils.

8.2 We achieve educational inclusion by continually reviewing what we do, by monitoring data, and through asking ourselves questions about the performance of these individuals and groups of pupils. In this way we make judgements about how successful we are being at promoting racial and gender equality, and including pupils with disabilities or special educational needs.

9 Consistency

9.1 All subject leaders study examples of children's work within their subject area. Subject leaders use the national exemplification materials to make judgements about the levels of the children's work. All our teachers discuss these levels, so that they have a common understanding of the expectations in each subject. By doing this we ensure that we make consistent judgements about standards in the school.

9.2 It is each subject leader's responsibility to ensure that the samples that they keep of children's work reflect the full range of ability within each subject.

9.3 Our subject leaders also obtain examples of work from our schools, as we believe there should be a common understanding of standards right through the education process.

10 Monitoring and review

10.1 Our assessment coordinator is responsible for monitoring the implementation of this policy. We allocate special time for this vital task. The coordinator uses this time to inspect samples of the children's work, and to observe the policy being implemented in the classroom.

10.2 This policy will be reviewed in two years, or earlier if necessary
